THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in *times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty*. All losses promptly adjusted and paid.

New York Life Insurance Company,
CASH CAPITAL OVER $1,900,000

all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

DAILY GAZETTE.

A State Educational Convention.

OFFICE SUP'T OF PUBLIC INSTRUCTION, Madison, June 2, 1862.

There will be a State Convention of County Superintendents of Schools at Janesville, on Tuesday, July 29th, 1862.—The session will commence promptly at 10 o'clock A. M.

The subjects for discussion are as follows:

1.—Standard of qualification of teachers as represented in certificates; and the means of rendering it uniform throughout the state.

2.—School visitations by superintendents; its main object and the mode of performing it.

3.—The grading of schools and the duty of superintendents in promoting it.

The forenoon session from 10½ to 12½ o'clock, will be devoted to the discussion of the first named subject.

The second subject will occupy the time from 2 to 3½ P. M., and the third from 3½ to 5 o'clock P. M.

The hour from 5 to 6 P. M. will be devoted to brief narrations of experience.

The annual session of the States Teachers' Association will commence at 7½ o'clock P. M., Tuesday, July 29th, and continue till Friday, August 1st.

N. B.—That the session may be as profitable as possible, it is desirable that each superintendent present should participate in the exercises. That this may be accomplished, each speaker will be limited to *five minutes* upon each of the subjects presented, or should he choose to confine himself to one of the three subjects, he will be allowed ten minutes. Very many valuable suggestions may be crowded into this brief space, if each speaker will prepare himself carefully, and commit his well digested thoughts to paper.

J. L. PICKARD,
Supt. Public Instruction.

☞ The State Convention, now in session in Missouri, was elected previous to the rebellion, has had one session, and now meets according to adjournment. The indications are that it will deal severely with traitors, and possibly adopt some measure to favor emancipation. It will probably annul the provision for an election for state officers in August, in consequence of the disturbed condition of the state, and the absence of so many volunteers in the federal army.

☞ At a public meeting in London recently, George F. Train speaking of Dr. Russel and the Times, said: "The time has arrived for the world to understand that the whole action of the Times through its leaders and its correspondent, has been to weigh golden sovereigns in the scale against human life and human misery."

☞ The people of Illinois vote upon their new constitution on the 17th of June There is much opposition to it.

☞ Mr. Lane offered a resolution in the senate, that the committee on public lands enquire into the expediency of confiscating the public lands of Texas, which was adopted.

☞ The wheat crop of southern Illinois will be ready to harvest in two weeks. It is said to be good.

UNION REGIMENT IN NEW ORLEANS.—Authority has been given some of the loyal citizens of New Orleans to raise a union regiment, and recruiting offices have been opened for that purpose.

DR. J. BOVEE DODS'

IMPERIAL WINE

BITTERS,

ARE made from a pure and unadulterated Wine, which is about double the usual strength of other Wines, and is imported by only one house in the United States. Also, from the following valuable Roots, Herbs, &c., viz: Solomon's Seal, Spikenard, Camomile Flowers, Gentian, Wild Cherry Tree Bark, and Bayberry.

WE CHALLENGE

THE WORLD

to produce

THEIR EQUAL!

We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all diseases which flesh is heir to," but we claim to present to the public a truly valuable preparation, which every intelligent Physician in the country will approve of and recommend. As a remedy for

INCIPIENT CONSUMPTION,

Weak Lungs, Indigestion, Dyspepsia, Diseases of the Nervous System, Paralysis, Piles, Diseases peculiar to Females, Debility, and all cases requiring a Tonic, they are

UNSURPASSED!

For Sore Throat, so common among the Clergy, they are truly valuable.

For the aged and infirm, or for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.

As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhilirating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to refrain from it. They are pure and entirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded.

These Bitters not only CURE, but PREVENT Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with impunity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic,* as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

New York Life Insurance Company,
CASH CAPITAL OVER - - $1,900,000
all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

DAILY GAZETTE.

A State Educational Convention.

OFFICE SUP'T OF PUBLIC INSTRUCTION,
Madison, June 2, 1862.

There will be a State Convention of County Superintendents of Schools at Janesville, on Tuesday, July 29th, 1862.—The session will commence promptly at 10 o'clock A. M.

The subjects for discussion are as follows:

1.—Standard of qualification of teachers as represented in certificates; and the means of rendering it uniform throughout the state.

2.—School visitations by superintendents; its main object and the mode of performing it.

3.—The grading of schools and the duty of superintendents in promoting it.

The forenoon session from 10½ to 12½ o'clock, will be devoted to the discussion of the first named subject.

The second subject will occupy the time from 2 to 3½ P. M., and the third from 3½ to 5 o'clock P. M.

The hour from 5 to 6 P. M. will be devoted to brief narrations of experience.

The annual session of the States Teachers' Association will commence at 7½ o'clock P. M., Tuesday, July 29th, and continue till Friday, August 1st.

N. B.—That the session may be as profitable as possible, it is desirable that each superintendent present should participate in the exercises. That this may be accomplished, each speaker will be limited to *five minutes* upon each of the subjects presented, or should he choose to confine himself to one of the three subjects, he will be allowed ten minutes. Very many valuable suggestions may be crowded into this brief space, if each speaker will prepare himself carefully, and commit his well digested thoughts to paper.

J. L. PICKARD,
Supt. Public Instruction.

☞ The State Convention, now in session in Missouri, was elected previous to the rebellion, has had one session, and now meets according to adjournment. The indications are that it will deal severely with traitors, and possibly adopt some measure to favor emancipation. It will probably annul the provision for an election for state officers in August, in consequence of the disturbed condition of the state, and the absence of so many volunteers in the federal army.

☞ At a public meeting in London recently, George F. Train speaking of Dr. Russel and the Times, said: "The time has arrived for the world to understand that the whole action of the Times through its leaders and its correspondent, has been to weigh golden sovereigns in the scale against human life and human misery."

☞ The people of Illinois vote upon their new constitution on the 17th of June. There is much opposition to it.

☞ Mr. Lane offered a resolution in the senate, that the committee on public lands enquire into the expediency of confiscating the public lands of Texas, which was adopted.

☞ The wheat crop of southern Illinois will be ready to harvest in two weeks. It is said to be good.

UNION REGIMENT IN NEW ORLEANS.—Authority has been given some of the loyal citizens of New Orleans to raise a union regiment, and recruiting offices have been opened for that purpose.

IMPERIAL WINE

BITTERS,

ARE made from a pure and unadulterated Wine, which is about double the usual strength of other Wines, and is imported by only one house in the United States. Also, from the following valuable Roots, Herbs, &c., viz: Solomon's Seal, Spikenard, Camomile Flowers, Gentian, Wild Cherry Tree Bark, and Bayberry.

WE CHALLENGE

THE WORLD

to produce

THEIR EQUAL!

We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all diseases which flesh is heir to," but we claim to present to the public a truly valuable preparation, which every intelligent Physician in the country will approve of and recommend. As a remedy for

INCIPIENT CONSUMPTION,

Weak Lungs, Indigestion, Dyspepsia, Diseases of the Nervous System, Paralysis, Piles, Diseases peculiar to Females, Debility, and all cases requiring a Tonic, they are

UNSURPASSED!

For Sore Throat, so common among the Clergy, they are truly valuable.

For the aged and infirm, or for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.

As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhilarating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to refrain from it. They are pure and entirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded.

These Bitters not only CURE, but PREVENT Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with impunity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

Censure of the Supreme Court.

We do not take any stock in the severe condemnation which some of the press of this state seem to think is proper to bestow upon two of the supreme court judges for the reversal of their own decision upon the tax question. We have no doubt they have acted, throughout, from conscientious motives. The question with them was between a violation of the constitution or a great public loss, in the confusion which would follow a strict adherence to the requirements of that instrument. Sworn to support the constitution, and knowing that it had been violated by the leislature, their first impulse and decision was to conform strictly to that oath. Will any honest man say that that would not have been his own first determination? But all courts have a fashion of bending constitutions and laws, on account of "public policy," so that what is clearly unlawful is often moulded into good law. We do not understand the process of reasoning which permits a court to do this, but it is done continually, so that custom sanctions it.

Our court perceiving the immense damage their decision was likely to impose upon the people, have reversed it, on that ground. Pride would have counseled that it would be disgraceful to "back down" in this way, but conquering this feeling, they have relieved the state of the effects of their first decision. We can see in this no reason for censure, and shall not indulge in it, but reiterate the recommendation to the legislature to pass a law taxing railroads, banks and all other property according to a *uniform* rule. The people will insist upon that, and no howling about the supreme court will prevent it.

The Gazette and many other papers, esteem it a christian duty to consider with favor nothing McClellan does, and others in the same spirit view and deal with Stanton's acts.—*Milwaukee Sentinel.*

This is hardly fair. We have rarely condemned Gen. McClellan; we believe, not oftener than the Sentinel itself. We were not satisfied with his inactive policy during the fall and winter, and expressed mortification and regret at the humiliating position which he and his army occupied upon the evacuation of Manassas; but feel none of the hostility implied by the Sentinel's remarks. The difference between us and the Sentinel is that we do not feel it incumbent upon ourselves to show our impartiality by taking both sides of the public questions as they arise, as is the habit of that paper. We seek no controversy with the Sentinel on this or any other point, and would not have alluded to it, had it not, *some time ago*, attempted to instruct us in our duty. When it sets itself up as a corrector of the press of this state, it must conduct itself consistently. If it denounces criticism of military and governmental matters as almost a crime amounting to disloyalty, it must stop all such criticism itself, or be convicted of insincerity. While it tells us that we must say nothing against the policy of the government or of McClellan, it should not denounce Stanton and Fremont, or pretend to favor free speech. We think all newspapers which attempt to repress the discussion of the policy of the government while we are engaged in war, will soon, if they have not already, found it an impossibility. What the people are talking and thinking about, continually, the press must represent and put in forms of expression. The American people have had free discussion so long that it becomes a part of their nature, and they will have it.—Therefore, the newspaper which attempts to hold no opinions, or which approves everything because it is the act of the government, cannot long exist where the conflict of ideas is so sharp and constant as they are at present. The French fashion of "warnings" to obnoxious newspapers will never be tolerated in this country.

An Excellent Appointment.—C. P. Wolcott, late Attorney General of Ohio, has been designated as Assistant Secretary of War, in place of General Scott.

We have the honor of a personal acquintance with Mr. Wolcott, and we know him to be efficient and thorough in business, and a true and noble hearted gentleman in whatever position he may be placed. With such a Secretary of War as Stanton, and an assistant like Wolcott, we may be sure that the administration of the business of the department will be conducted on right principles.

The Indiana Fraud.—The Indiana fraud, by the over issue of bonds, as unearthed, seems to have reached a total of nearly $1,500,000, of which about $1,250,000 have either been retired outright, or are in process of cancellation.

Neutrality.—Gen. Butler found at New Orleans an organized military company, consisting of Englishmen, called the "British Guards," who, upon the surrender of the city, sent their arms to Beauregard and disbanded. Butler has rightfully banished them from the city.

The Progress of the Fleet.

The New York Evening Post publishes extracts from the letter of an officer on the United States steamer Brooklyn, one of the vessels of Com. Farragut's fleet. The most interesting part of his letter is the description of scenes and incidents of the passage up the river towards Vicksburg and Memphis:

"Our routine is this: We steam up the river days and come to anchor *nights.*—Last night, as usual, we came to anchor just before sunset, and also, as is our usual custom, we sent a boat on shore to have friendly communications, as far as the people will allow us to be friendly, with the residents of this vicinity. Mr. Lowry, 1st lieutenant, the chief engineer, the doctor and myself were the officers who went in the boat. We pulled ashore abreast of one of the plantation houses. The house at first seemed deserted. As we approached the gateway, however, the proprietor made his appearance at the front door and commenced walking up and down the piazza, wringing his hands, a perfect picture of terror. He met us about half the distance from the gate to his dwelling, holding out both his hands in the greatest possible terror, exclaiming: 'You will not hurt me, my family [pointing to the house] are in the deepest possible distress, and are nearly dead with fear. But for me, I will not, cannot believe that you are such barbarians as you have been reported—I will not believe you have come to steal, burn, ravish and destroy, and consequently I have come out to meet you. My family have hidden themselves away, and the servants also have gone into the stables for fear you will steal, carry them off, and sell them;' and so on, at some length.

"We, of course, protested against all this, and assured him that our mission up the river was for the purpose of restoring and building up, and not to destroy; that we were the enemies of those only who compelled us to be so, and never of defenceless men or women and children of the southern states. It was a long time before he could be made fully to understand the nature of our visit, and still longer before the remainder of his family could be prevailed upon to show themselves. They were finally reassured, and the whole family made their appearance, apparently with fear and trembling—their eyes were red with weeping from the terror inspired by the southern vandals. It was an interesting family—all (five) girls, from eight to twenty, perhaps—some of them decidedly pretty. They were at first very shy, hardly a word could be got out of them. Soon they all grew more talkative, and before we left their reserve had all disappeared.—They had become perfectly reassured, and a more agreeable half hour I have not passed since I left New York than the last of our visit.

Everything that was in the house or that grew on the plantation was at our service; our boat was loaded with fowls and vegetables and milk, and the next morning, before we had got under way, they had killed a bullock and brought it down for the use of the *ship's company*, and presented to each of the officers who were on shore the night previous a splendid bouquet of flowers.

"Our interview with this family shows how complete is the system of terror imposed by the rebel government over the people in this part of our country, and all wanting to disabuse their minds is sufficient intercourse with us to make them acquaited with our object in prosecuting the war, and no force would be further necessary to put an end to the war. This is not an isolated case.

REFUSAL TO BURN COTTON.

"At daylight we got under way and steamed up the river. At sunset came to anchor just below the line that divides the states of Louisiana and Mississippi, abreast of the very extensive plantation of a gentleman who bears the name of Colonel ——. He is owner of six plantations, and works one thousand negroes. Sent two boats ashore (armed). I went with one of the boats. Had an interview with Colonel ——, his overseers and negroes. This gentleman is in a very bad 'fix.' He has now five thousand bales of cotton stored on his plantation, and received orders the very same night, before we paid him our visit, to burn or remove it five miles further into the interior. He is very indignant at the rebel government, and says, with an oath, he will die first. He denounces the rebel government and all its works, and says there is a terrible reaction about to take place in these southern states, and justice; though long delayed, will surely have its right. And he says truly; hundreds and thousands are like him. They are, since the advent of our fleet, bidding defiance to the rebel authority, and soon that power will be powerless, even in its own dominions. Thus the work goes bravely on.

"A few words about the slaves as I have at present found them may not be out of place, and may be of interest to some of my friends at the north. On the plantations they are extremely simple, and most of them very ignorant. They all think they are going to be emancipated by Massa Lincoln unconditionally. In the city they are better informed, most of them at all events, and have a more correct knowledge of the true state of the case and the difficulties that practical emancipation has to encounter."

In regard to the burning of cotton, the Richmond Whig of the 21st ult. says editorially:

"The patriotic work of destroying the staple, in order to prevent it from falling into the hands of the enemy, is still going on with undiminished success. The Vicksburg Citizen learns that on Sunday, the 11th inst., twenty thousand bales were committed to the flames between that city and Greenville. Some nine thousand bales have been destroyed between there and Grand Gulf. Judge Perkins alone consigned 1,300 bales to the flames. The Vicksburg Whig says: 'We learn that cotton, all along the river, as high as Napoleon, is being burned. Between here and New Orleans, the flames have devoured it. A gentleman who came down the river yesterday in a skiff from Napoleon, informs us that the river was almost one mass of burning cotton. The cotton from Napoleon down has all been burned. He also says it was reported that a few planters who hauled their cotton back and hid it in the cane had been imprisoned.

A planter informs us that he saw the negroes on a plantation above this city shed tears when the cotton was being fired. It is very hard to destroy the labor of a whole year, but it is a necessity that cannot be helped. There will, no doubt, be a quarter of a million of bales burned on the Mississippi and tributaries, worth twelve million dollars at ordinary prices.'"

From an officer's letter, also on one of the vessels progressing up the Mississippi, we quote the following:

Saturday, May 3.—We got under way and followed the Brooklyn up the river. All along both banks there was a succession of fine plantations, most of them growing sugar. The people were all gathered on the levees and in the porches to gaze at us as we passed—and well they might, for so stately and formidable a vessel as the Brooklyn had never passed that way before. It was like a gala day to us. The country was cultivated like a garden, and much more populous than I had been led to suppose from anything I had ever read of it.

Either there had never been such a universal rush to arms as has been represented, or they considered a large home guard necessary, for we saw able-bodied men enough to make quite an army in the course of the day. There were no manifestations of ill-feeling observed on the part of the inhabitants, and we saw no secession flags flying. On the other hand, ladies waved their handkerchiefs to us, and once the stars and stripes were shown. Of course we responded most heartily to the demonstrations. At nightfall we came to anchor near the river bank as before.

Sunday, May 4.—We got under way early in the morning and proceeded up the stream again. As we were starting a man came off in a boat and advised us to sheer off a point we were approaching, as the water was shoal there. We kept steadily on all day, steering against the powerful current. The river is unusually full at this time, and a small additional rise would carry it over the levees. The latter are about five feet high on an average, and all along inside, between them and the plantation fences there is a road, on which, as we passed up the river, we could see the tops of carriages and the heads of men on horseback bobbing up and down as they rode. We passed, in the course of the day, Donaldsonville and Plaquemine, small places on the right bank of the river. It being Sunday, the negroes as well as the whites were gathered in groups upon the banks gazing at us. There were no demonstrations of any kind except at one plantation, *in front of* which, on the levee, there was a young woman waving a secession flag and gesticulating in a most theatrical style. She was surrounded by a group of negroes shouting lustily. It was an amusing scene and caused a hearty laugh among us. At *night* we came to anchor off a plantation eight miles below Baton Rouge. Our boats were sent ashore and obtained supplies of chickens and eggs. The planter seemed to be quite a reasonable man, and told us that when men had ridden along the river *advising all the planters to destroy their crops* he had refused to destroy his.

Monday, May 5.—We passed Baton Rouge in the morning without stopping. The whole river opposite the place was filled with floating cotton, *which had been scattered on the water evidently to make a show.* It was said that 9,000 bales had been destroyed the day before. After passing the town, however, we saw but little more floating cotton during the day. We had heard of batteries at Baton Rouge, but saw nothing of them.

As we went on, the plantations became more scattered and seemed newer. The greater number were devoted to the culture of cotton, instead of sugar as below. The country grew higher, too, and there were some high bluffs. We anchored at night on a lonely beach of the river.

Tuesday, May 6.—Kept on up the river till night, seeing nothing worth recording except the burning of cotton along the river banks and greater quantities of it floating down the river. We came to anchor at night off a large cotton plantation, the overseer of which said he had that day burned 700 bales of cotton by order of the owner. He was very unreasonable and refused to sell anything to us.

The Pope Coming to America.—Several Americans of eminence have been in London during the past week, among whom were Mr. Judd, United States minister to Berlin, and Gov. Randall, minister at Rome, on his way to his post. Bishop Duggan, of Chicago, and a number of other American Roman Catholic bishops, have passed through London on their way to Rome; having been summoned thither nominally to attend the ceremonial canonization of the martyrs of Japan. It seems to be the general opinion here that the Pope would hardly require so many bishops to make a journey of five or six thousand miles merely for a purpose so practically unimportant, and it is thought that some other motive is at the bottom of this movement. Prominent among the various speculations on the subject is one which I give for what it may be worth, viz, that the retirement of the Pope from Rome being only a question of time, he is possibly contemplating a permanent settlement on the American continent, and hence these bishops have been summoned to a general consultation.—*London Cor. Phil. Enquirer.*

Italy.—A Turin letter says that all the Italian ministers have gone to Naples, where Prince Napoleon is to meet them with the emperor's plan for the settlement of the Roman question. What that plan is, is not known, but the letter affirms that the ex-king of Naples will be sent away from Rome, and the pope will have reasonable time for putting his affairs in order. Garabaldi is still in Upper Italy, pretending illness, and getting information about the Venetian provinces.

Confederate Officers Taking the Oath of Allegiance.—It is with much pleasure we record that Capt. J. D. Wheeler, Lieut. Wm. Patey, and Joseph Talley, private, of Smith's battallion, and Capt. Nathan Oakley, of Col. Hatton's infantry, Wilson county, having, left the army at Corinth, came home and voluntarily took the oath of allegiance to the government of the United States, and gave bonds for their good behavior, in this city on yesterday. Captain Robert Bass and Lieut. Sumner Hamilton, also of Smith's battallion, have likewise taken the oath and given bonds.—*Nashville Union, May 30.*

A Whole Tennessee Regiment Abandoning the Rebellion.—We learn that Col. Newman's infantry regiment which was raised in Bedford, Marshall and the adjoining counties, left Beauregard's army at Corinth *en masse* some days ago, and are now on their way home. This regiment was composed of twelve months men who refused to be forced into the service any longer, although great efforts were made to retain them, they being the most valuable in the service. They are completely disgusted with the rebellion. The boys wrote as a motto on their hats, "Home or Hell."—Thousands more are anxious to follow them. Come back to the old flag, boys!—*Nashville Union.*

Return of Mr. Weed.—Mr. Thurlow Weed announces his return to the United States, after his protracted absence, by the steamer of the 25th. He has been received and treated, both in this country and France, with much consideration and respect, and it is believed that his mission has not been unproductive of good effects.—*London Correspondence Philadelphia Inquirer.*

Haul of Gun Metal.—When General Butler's troops took possession of the Custom House at New Orleans, they found in the same $50,000 worth of bells and bells of all sorts and sizes, that had been contributed by the rebels in response to Beauregard's proclamation for gun-metal.—When made up, these guns will speak in different tones from what their donors anticipated.

On the 4th of March, 1861, when President Lincoln was inaugurated, the government vessels available for service were only four in number, carrying 25 guns. Our navy now consist of 264 vessels of all sizes, carrying 2,057 guns, with an aggregate tonnage of 218,016 tons. The number of seamen now employed is 22,000.

Last Night's Report.

PHILADELPHIA, June 4.

The steamer Muldin arrived at 1 o'clock this morning from James river, having on board 400 wounded Pennsylvania soldiers from the late battle on the Chickahominy.

BOSTON, June 4.

A private dispatch says that the steamer Daniel Webster left White House, last night, with 242 wounded New England soldiers, including Brig. Gen. Devins and Col. Briggs, of Boston.

WASHINGTON, June 4.

The act to prevent and punish frauds on the part of officers entrusted with making contracts with the government, which has just been approved by the president, establishes an office, where all contracts are to be placed for public inspection. All officers making contracts are required to swear that they conclude the same without any benefit or advantage to themselves or to any other person. The penalty for the violation of the law is not less than $100 nor more than $500, and imprisonment not more than six months.

An official report from the secretary of the treasury states the public debt on the 25th of May at $491,445,984.

The sub-committee of ways and means have had a draft of the new tariff bill printed for the private use of that committee.

MARTINSBURG, June, 4.

Reliable statements from Strasburg say that Jackson's whole force, with his train and prisoners, succeeded in passing through towards New Market. The firing of Monday was an attack of Gen. Milroy on Jackson's rear guard at Fisher's Hill, a strong strategic point a mile and a half south of Strasburg. From all the information attainable the enemy held his ground and resumed his retreat during the night. It is reported that Jackson's advance guard was at New Market on Monday night. Generals Smith and Longstreet were in the valley with 15,000 men, but their exact position was unknown.

CHICAGO, June 4th.

A special despatch from Cairo says that immediately on the occupation of Corinth, forces from Gen. Pope's division were sent out in pursuit of such rebels as fled westward. Gen. Granger, in command of two regiments of cavalry, soon came upon the rear of the enemy, six miles south-west of Corinth, and engaged them. He lost fifty men in this fight, but was afterwards re-inforced, when the rebels were surrounded It is said that five or ten thousand were captured. A portion of these have reached Pittsburg Landing, en route for the northern military prisons. Latest accounts state that Gen. Pope was nine miles south-west of Corinth, which point his whole corps had reached.

Special dispatch to the Chicago Tribune.

CAIRO, June 4.

There have been several arrivals from above to-day, but no items of interest relative to operations at Corinth are allowed to be published.

Since the evacuation of Corinth the rebel cavalry regiment under Bill Jackson, numbering 1,000 strong, are stationed again at Trenton. The latest news from the fleet came by the De Soto *this morning.* There was a rumor current this morning in Cairo that the fort was evacuated, but this is not believed.

I understand that Col. Fitch, of the 46th Indiana, thinks that it is now progressing. Whether evacuated or not, *there are* movements which will compel its evacuation or surrender within a very few days.

A refugee from Arkansas reports that steps are being taken to call a state convention in Arkansas, with a view to give in their allegiance to the Union.

The whole number of troops arriving at Cairo from May 13th to June 4th, is 16,157. Of these, 2,150 are sick, and 100 were prisoners from the Tennessee.

WASHINGTON, June 4.

The following dispatch has been received this afternoon at the war department:

HALLECK'S HEADQUARTERS, June 4, 1862.

To Hon. E. M. Stanton, Secretary of War:—

Gen. Pope, with 40,000 troops, is thirty miles south of Corinth, pushing the enemy hard. He already reports 10,000 prisoners and deserters from the enemy and 15,000 stand of arms captured. Thousands of the enemy are throwing away their arms as they fly.

A farmer says that when Beauregard learned that Col. Elliot had cut the railroad on his line of retreat, he became frantic, told his men to save themseves the best way they could. We captured nine locomotives and a number of cars. One of the former is already repaired, and is *running* to-day. Several more will be in running order in a few days. The result is all that I could possibly desire.

Signed,
H. W. HALLECK,
Major General Commanding.

Special Dispatch to the Chicago Tribune.

WASHINGTON, June 4.

The instructions to Governor Andy Johnson are identical with those of Governor Stanly of North Carolina.

The comptroller of the treasury has refused to audit the claims of the National Intelligencer for $35,000, under the late resolution of the House, directing that sum so be paid out of the contingent fund for the Annals of Congress. The comptroller says the contingent fund can only be applied to certain *regular* contingencies already provided for by law, and any new expenditure must be covered by special appropriation. It is to be feared the Intelligencer will be put to the trouble of having another bill passed, and the country to the trouble of perusing another ugly record.

The emancipation bill, rejected, was re-considered by nineteen majority, all republicans, except Granger of Michigan, against whom charges of apostacy are freely made. Horton of Ohio, and Divan of New York, voted aye. They are unionists. Harrison of Ohio, Thomas of Massachusetts, and Sheffield of Rhode Island, voted no.

Fouke was brought on to vote. Casey of Kentucky, and Fisher of Delaware, dodged. Burnham of Connecticut, with the exception of colonels in the field, was the only republican absent unpaired.

Porter's substitute for the original bill frees the slaves of ring leaders, and confiscates their property, and frees the slaves of all rebels who remain such, sixty days after this notice. It disqualifies those whose slaves are freed from ever holding office, and contains Blair's voluntary emancipation proposition.

The senate voted to tax cotton a half cent per pound, and reduced the tax on insurances premiums from three to one per cent., and that on auctions to one-tenth per cent. on stock sales.

On Garret Davis' motion, a tax was imposed on silver and gold over $500 in amount.

A fugitive slave was released by the commission to-day, the claimant's counsel admitting he was free under the emancipation act.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DESPATCHES.

FORT MONROE, June 2.

One of the first acts of General Dix, is the relaxation of all restriction upon trade with Norfolk. After this date provisions of all kinds may be taken to Norfolk or Portsmouth. Another satisfactory change is the revocation of the order requiring the examination of drop letters in Norfolk and Portsmouth, before their delivery.

NASHVILLE, June 4.

Special to the New York Herald.

Col. Wyhkoop's Pennsylvania cavalry made a dash into Winchester, to-day, dispersing a large force of rebels, capturing a fighting preacher, Captain Timball. Fifteen hundred union prisoners captured by the rebels at Shiloh, arrived here to-day, released on parole. The rebels had not enough to feed them. They had been taken to Georgia.

NEW YORK, June 5.

The Persia arrived this morning. European news is unimportant. The anxiety for American intelligence daily increases.

In the House of Commons Mr. Mildmay asked what steps the government intended to take in the case of the steamer Bermuda, seized by a federal ship of war on her passage from one British colony to another.

Mr. Layard said the government had received information of the seizure and the case had been referred to the law officers of the crown, whose opinion was awaited.

The Times says the details of the capture of New Orleans places the surrender in a more creditable light for its defenders. Surrender after such a contest as took place being divested of any reproach. It says stubborn and protracted resistance is yet threatened by the south, but the progress of the north, though somewhat slow, has hitherto been sure, and if place after place be abandoned, there must come a time when the rest will be hardly worth defending.

The Paris Constitutionale argues that the north in advancing deep into the south will meet with insurmountable obstacles; that the end is further off than ever, and that those who urge the north to establish its sway on sanguinary ruins and devastation, are not aware of the end future. They would prepare emancipation for four millions of negroes and slavery for six millions of whites.

Arguments relative to the restitution of the ship Emily St. Pierre were advanced pro and con in the Liverpool journals.

The Globe says England has washed her hands of the Mexican business, retaining only her hold of Vera Cruz to compel the discharge of debts to English subjects.

Lord Paget said the admiralty had settled with Capt. Cooles, relative to his cupola inventions. It is reported he gets £5,000 down, and £1,000 for every cupola introduced in the navy during fourteen years.

The common council of London had unanimously agreed to present the freedom of the city to Geo. Peabody in a gold box for his munificent gift.

It is reported that the French government have resolved on the occupation of the City of Mexico under every contingency, and next fall every strategic position of the country to be seized on. The occupancy is to extend three years to allow time for the development of the national will. The Arch Duke Maximmillian, of Austria, is about to visit France.

It is reported that France has formally demanded the expulsion of the ex-King of Naples from Rome.

Trade at Manchester is inactive, but prices firm with tendency towards a further advance.

Richardson, Spencer & Co., and others report flour again easier and prices nominal—quotations 23 and 6a30—wheat very quiet, and in favor of buyers. Red western 9 and 6a10 and 6, southern 10 and 6, white western 11 and 3a11 and 9, southern 11 and 2a12 and 3 her cent.

Saturday p. m., market entirely without change, business very dull.

WASHINGTON, June 4, P. M.

No despatches have been received, to day, at the war department from the headquarters of the army of the Potomac. The military telegraph line between Fort Monroe and headquarters is broken by a storm but is expected to be repaired by to-morrow.

No intelligence of public interest has been received from Shenandoah. The rise in the Shenandoah embarrasses military operations.

AFTERNOON DESPATCHES.

SUNDAY—The steamer Southwick had arrived at Liverpool from Nassau, with cotton and rosin.

MADRID, May 24.

It is stated that General Prim will be authorised to return to Mexico as Spanish ambassador, being instructed to present his credentials only to the constituted government, not to Juarez.

QUEENSTOWN, May 25.

CHINA—Shanghai, April 17.—The rebels were driven out of Thuggadu on the 3rd. The place is in the hands of the allies. Admiral Hope was slightly wounded. Nankin is surrounded by superior forces.

FORT MONROE, June 4.

The steamer Vanderbilt arrived this morning, from White House, with 560 wounded soldiers in the recent engagements. The steamer Metamoras, which took to City Point Mrs. Greenhow and party, returned last night. The steamer Massachusetts with the privateers on board, was lying along side the wharf at City Point.

In answer to the notice given of her arrival, a train of three baggage cars came to City Point from Petersburg, yesterday forenoon, with two rebel officers on board. They came after the privateers, but not having brought down Col. Corcoran and party, the privateers were not given up.

Nothing later in regard to the subject had transpired, up to yesterday afternoon, when the Massachusetts was still awaiting further communication from Petersburg.

NEW YORK, June 5th.

NEW YORK, June 5th.

The steamer Philadelphia, from Pensacola 25th, and Key West 30th, has arrived. Gen. Arnold and troops still occupy Pensacola, and a quantity of stores, &c., have been moved from Fort Pickens to that place. Rebel deserters are constantly coming in. The Wilson Zouaves are throwing up fortifications commanding all land approaches. The Vincennes lays off the city. General Arnold is feeding the poor, who are very destitute. About 800 rebel cavalry are in the neighborhood of our pickets, capturing some frequently. The navy yard was completely destroyed, and 6,000 tons of coal is still burning.

BALTIMORE, June 5.

The gallant Col. Kenly arrived here this morning. Although still suffering from his wounds he is anxious to be exchanged and resume his place in the army.

POCAHONTAS, Ark., June 5.

A rebel gunboat came to Jacksonport, day before yesterday, and destroyed all the cotton and sugar there. She was reported to be on the way here, but we have since learned that she returned down the river, destroying all cotton and sugar as she went. It is supposed that a very large amount of each has been destroyed. For a time there was much consternation in this vicinity, and troops were under marching orders all Tuesday night. Everything is quiet now.

HALLECK'S HEADQUARTERS, June 4.

MIDNIGHT.—A man who left Grand Junction this morning, says that Memphis and Fort Pillow were surrendered to our forces Friday night.

HALLECK'S HEADQUARTERS, June 3.

Citizens say, when Beauregard learned that the railroad had been cut he became frantic and told his men to save themselves as best as they could. Several regiments of Mississippians have dispersed and gone home. Gen. Pope with 40,000 men, at last accounts, was 40 miles south, pressing the enemy hard. He already reports 10,000 prisoners and deserters, and 15,000 stand of arms captured. We have also captured nine locomotives, partially disabled and several cars and expect to have them running.

Concerning contrabands we have the following, addressed to Gen. Phelps, the great proclaimer:

HEADQUARTERS DEPARTMENT OF THE GULF, New Orleans, May 9th 1862.

GEN. PHELPS—Mr. J. B. G. Armond says that a boy by name of Irwin Pardon, whose services he claims, has come within your line. The course which I have adopted in such cases is this: If I have any use for the services of such a boy I employ him without any scruple; if I have not, I do not harbor him, as my subsistence would by no means serve for so many extra men that I do not need. If you have any use for him, use him; if not, is he not like any other vagrant about the camp?

Respectfully, B. F. BUTLER,
Maj. Gen. Commanding.

REV. HENRY WARD BEECHER, in the course of his service at the Plymouth Church, Sunday night, made an eloquent appeal for newspapers, speaking of them as one of the most potent elements of our civilization. "There is," said he, "a common vulger objection about newspapers that 'they lie' so; they don't lie any more than you do. Man is naturally a lying creature. Truth is a gift from Heaven, and very few of us possess it before we get there. The newspapers give both facts and rumors, and they would be blaemd if they did not do so. It is for the reader to judge of these rumors. The last economy should be in regard to newapapers. It is better to deprive the body of some ribbon, or jewel, or garment, than to deprive the mind of its sustenance."

COL. WOOD.—We regret to learn that Col. Wood, of the Wisconsin Fourteenth, still remains quite sick, and fears are entertained that he will not recover. We hope these fears will not be realized.

DIED.

At the residence of his father, JOHN CHARLES, youngest son of Joseph L. and Ann Croft, aged 10 years and 6 months.

The Mutual Life Insurance Company

OF THE

STATE OF WISCONSIN,

Presents advantages in all respects equal, and in some superior, to those of other companies doing business in the northwest. Its rates, its plan of operations, and its basis, are identical with the best companies in this country and Europe. Its age, and consequently its accumulations, are not equal to theirs *in amount*, but in proportion to the age of risks, and amount at risk, they will compare favorably with the most successful.

Its assets, which have resulted solely from the accumulations of three years, amount to **$86,881.20**, and its annual income, from policies now in force, over **$65,000.**

Its assets and business are constantly increasing. Its losses have been promptly paid. Its trustees are well known, honorable business men, and are as capable of managing an institution of this kind, as men in any other portion of the United States. The experience of the company thus far proves that we can have as reliable companies in the west as any where else, if we will, *and self-interest certainly indicates that we should have them, and build up home interests in every practicable way.* In the above respects, this company claims equality with its co-workers, and in the following superiority: It obtains the greater portion of its business in the healthiest portion of the United States, thus having the advantage of a less per centage of loss: it receives higher rates of interest on its investments, thus making more rapid accumulations—both very important items in Life Insurance; *and its expenses have been less* in proportion to its business than any other new company doing business in the United States.

A. W. KELLOGG, Secretary.
H. G. WILSON, General Agent.

The Daily Gazette.

City of Janesville.

Thursday Evening, June 5, 1862.

Official Paper of the City.

Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

Censure of the Supreme Court.

We do not take any stock in the severe condemnation which some of the press of this state seem to think is proper to bestow upon two of the supreme court judges for the reversal of their own decision upon the tax question. We have no doubt they have acted, throughout, from conscientious motives. The question with them was between a violation of the constitution or a great public loss, in the confusion which would follow a strict adherence to the requirements of that instrument. Sworn to support the constitution, and knowing that it had been violated by the leislature, their first impulse and decision was to conform strictly to that oath. Will any honest man say that that would not have been his own first determination? But all courts have a fashion of bending constitutions and laws, on account of "public policy," so that what is clearly unlawful is often moulded into good law. We do not understand the process of reasoning which permits a court to do this, but it is done continually, so that custom sanctions it.

Our court perceiving the immense damage their decision was likely to impose upon the people, have reversed it, on that ground. Pride would have counseled that it would be disgraceful to "back down" in this way, but conquering this feeling, they have relieved the state of the effects of their first decision. We can see in this no reason for censure, and shall not indulge in it, but reiterate the recommendation to the legislature to pass a law taxing railroads, banks and all other property according to a *uniform* rule. The people will insist upon that, and no howling about the supreme court will prevent it.

The Gazette and many other papers, esteem it a christian duty to consider with favor nothing McClellan does, and others in the same spirit view and deal with Stanton's acts.—*Milwaukee Sentinel.*

This is hardly fair. We have rarely condemned Gen. McClellan; we believe, not oftener than the Sentinel itself. We were not satisfied with his inactive policy during the fall and winter, and expressed mortification and regret at the humiliating position which he and his army occupied upon the evacuation of Manassas; but feel none of the hostility implied by the Sentinel's remarks. The difference between us and the Sentinel is that we do not feel it incumbent upon ourselves to show our impartiality by taking both sides of the public questions as they arise, as is the habit of that paper. We seek no controversy with the Sentinel on this or any other point, and would not have alluded to it, bad it not, some time ago, attempted to instruct us in our duty. When it sets itself up as a corrector of the press of this state, it must conduct itself consistently. If it denounces criticism of military and governmental matters as almost a crime amounting to disloyalty, it must stop all such criticism itself, or be convicted of insincerity. While it tells us that we must say nothing against the policy of the government or of McClellan, it should not denounce Stanton and Fremont, or pretend to favor free speech. We think all newspapers which attempt to repress the discussion of the policy of the government while we are engaged in war, will soon, if they have not already, found it an impossibility. What the people are talking and thinking about, continually, the press must represent and put in forms of expression. The American people have had free discussion so long that it becomes a part of their nature, and they will have it.—Therefore, the newspaper which attempts to hold no opinions, or which approves everything because it is the act of the government, cannot long exist where the conflict of ideas is so sharp and constant as they are at present. The French fashion of "warnings" to obnoxious newspapers will never be tolerated in this country.

AN EXCELLENT APPOINTMENT.—C. P. Wolcott, late Attorney General of Ohio, has been designated as Assistant Secretary of War, in place of General Scott.

We have the honor of a personal acquintance with Mr. Wolcott, and we know him to be efficient and thorough in business, and a true and noble hearted gentleman in whatever position he may be placed. With such a Secretary of War as Stanton, and an assistant like Wolcott, we may be sure that the administration of the business of the department will be conducted on right principles.

THE INDIANA FRAUD.—The Indiana fraud, by the over issue of bonds, as unearthed, seems to have reached a total of nearly $1,500,000, of which about $1,250,000 have either been retired outright, or are in process of cancellation.

NEUTRALITY.—Gen. Butler found at New Orleans an organized military company, consisting of Englishmen, called the "British Guards," who, upon the surrender of the city, sent their arms to Beauregard and disbanded. Butler has rightfully banished them from the city.

The Progress of the Fleet.

The New York Evening Post publishes extracts from the letter of an officer on the United States steamer Brooklyn, one of the vessels of Com. Farragut's fleet. The most interesting part of his letter is the description of scenes and incidents of the passage up the river towards Vicksburg and Memphis:

"Our routine is this: We steam up the river days and come to anchor nights.—Last night, as usual, we came to anchor just before sunset, and also, as is our usual custom, we sent a boat on shore to have friendly communications, as far as the people will allow us to be friendly, with the residents of this vicinity. Mr. Lowry, 1st lieutenant, the chief engineer, the doctor and myself were the officers who went in the boat. We pulled ashore abreast of one of the plantation houses. The house at first seemed deserted. As we approached the gateway, however, the proprietor made his appearance at the front door and commenced walking up and down the piazza, wringing his hands, a perfect picture of terror. He met us about half the distance from the gate to his dwelling, holding out both his hands in the greatest possible terror, exclaiming: 'You will not hurt me, my family [pointing to the house] are in the deepest possible distress, and are nearly dead with fear. But for me, I will not, cannot believe that you are such barbarians as you have been reported—I will not believe you have come to steal, burn, ravish and destroy, and consequently I have come out to meet you. My family have hidden themselves away, and the servants also have gone into the stables for fear you will steal, carry them off, and sell them;' and so on, at some length.

"We, of course, protested against all this, and assured him that our mission up the river was for the purpose of restoring and building up, and not to destroy; that we were the enemies of those only who compelled us to be so, and never of defenceless men or women and children of the southern states. It was a long time before he could be made fully to understand the nature of our visit, and still longer before the remainder of his family could be prevailed upon to show themselves. They were finally reassured, and the whole family made their appearance, apparently with fear and trembling—their eyes were red with weeping from the terror inspired by the southern vandals. It was an interesting family—all (five) girls, from eight to twenty, perhaps—some of them decicedly pretty. They were at first very shy, hardly a word could be got out of them. Soon they all grew more talkative, and before we left their reserve had all disappeared.—They had become perfectly reassured, and a more agreeable half hour I have not passed since I left New York than the last of our visit.

Everything that was in the house or that grew on the plantation was at our service; our boat was loaded with fowls and vegetables and milk, and the next morning, before we had got under way, they had killed a bullock and brought it down for the use of the ship's company, and presented to each of the officers who were on shore the night previous a splendid bouquet of flowers.

"Our interview with this family shows how complete is the system of terror imposed by the rebel government over the people in this part of our country, and all wanting to disabuse their minds is sufficient intercourse with us to make them acquainted with our object in prosecuting the war, and no force would be further necessary to put an end to the war. This is not an isolated case.

REFUSAL TO BURN COTTON.

"At daylight we got under way and steamed up the river. At sunset came to anchor just below the line that divides the states of Louisiana and Mississippi, abreast of the very extensive plantation of a gentleman who bears the name of Colonel ——. He is owner of six plantations, and works one thousand negroes. Sent two boats ashore (armed). I went with one of the boats. Had an interview with Colonel ——, his overseers and negroes. This gentleman is in a very bad 'fix.' He has now five thousand bales of cotton stored on his plantation, and received orders the very same night, before we paid him our visit, to burn or remove it five miles further into the interior. He is very indignant at the rebel government, and says, with an oath, he will die first. He denounces the rebel government and all its works, and says there is a terrible reaction about to take place in these southern states, and justice, though long delayed, will surely have its right. And he says truly; hundreds and thousands are like him. They are, since the advent of our fleet, bidding defiance to the rebel authority, and soon that power will be powerless, even in its own dominions. Thus the work goes bravely on.

"A few words about the slaves as I have at present found them may not be out of place, and may be of interest to some of my friends at the north. On the plantations they are extremely simple, and most of them very ignorant. They all think they are going to be emancipated by Massa Lincoln unconditionally. In the city they are better informed, most of them at all events, and have a more correct knowledge of the true state of the case and the difficulties that practical emancipation has to encounter."

In regard to the burning of cotton, the Richmond Whig of the 21st ult. says editorially:

"The patriotic work of destroying the staple, in order to prevent it from falling into the hands of the enemy, is still going on with undiminished success. The Vicksburg Citizen learns that on Sunday, the 11th inst., twenty thousand bales were committed to the flames between that city and Greenville. Some nine thousand bales have been destroyed between there and Grand Gulf. Judge Perkins alone consigned 1,300 bales to the flames. The Vicksburg Whig says: 'We learn that cotton, all along the river, as high as Napoleon, is being burned. Between here and New Orleans, the flames have devoured it. A gentleman who came down the river yesterday in a skiff from Napoleon, informs us that the river was almost one mass of burning cotton. The cotton from Napoleon down has all been burned. He also says it was reported that a few planters who hauled their cotton back and hid it in the cane had been imprisoned.

A planter informs us that he saw the negroes on a plantation above this city shed tears when the cotton was being fired. It is very hard to destroy the labor of a whole year, but it is a necessity that cannot be helped. There will, no doubt, be a quarter of a million of bales burned on the Mississippi and tributaries, worth twelve million dollars at ordinary prices.'"

From an officer's letter, also on one of the vessels progressing up the Mississippi, we quote the following:

SATURDAY, MAY 3.—We got under way and followed the Brooklyn up the river. All along both banks there was a succession of fine plantations, most of them growing sugar. The people were all gathered on the levees and in the porches to gaze at us as we passed—and well they might, for so stately and formidable a vessel as the Brooklyn had never passed that way before. It was like a gala day to us. The country was cultivated like a garden, and much more populous than I had been led to suppose from anything I had ever read of it.

Either there had never been such a universal rush to arms as has been represented, or they considered a large home guard necessary, for we saw able-bodied men enough to make quite an army in the course of the day. There were no manifestations of ill-feeling observed on the part of the inhabitants, and we saw no secession flags flying. On the other hand, ladies waved their handkerchiefs to us, and once the stars and stripes were shown. Of course we responded most heartily to the demonstrations. At nightfall we came to anchor near the river bank as before.

Sunday, May 4.—We got under way early in the morning and proceeded up the stream again. As we were starting a man came off in a boat and advised us to sheer off a point we were approaching, as the water was shoal there. We kept steadily on all day, steering against the powerful current. The river is unusually full at this time, and a small additional rise would carry it over the levees. The latter are about five feet high on an average, and all along inside, between them and the plantation fences there is a road, on which, as we passed up the river, we could see the tops of carriages and the heads of men on horseback bobbing up and down as they rode. We passed, in the course of the day, Donaldsonville and Plaquemine, small places on the right bank of the river. It being Sunday, the negroes as well as the whites were gathered in groups upon the banks gazing at us. There were no demonstrations of any kind except at one plantation, in front of which, on the levee, there was a young woman waving a secession flag and gesticulating in a most theatrical style. She was surrounded by a group of negroes shouting lustily. It was an amusing scene and caused a hearty laugh among us. At night we came to anchor off a plantation eight miles below Baton Rouge. Our boats were sent ashore and obtained supplies of chickens and eggs. The planter seemed to be quite a reasonable man, and told us that when men had ridden along the river advising all the planters to destroy their crops he had refused to destroy his.

Monday, May 5.—We passed Baton Rouge in the morning without stopping. The whole river opposite the place was filled with floating cotton, *which had been scattered on the water evidently to make a show.* It was said that 9,000 bales had been destroyed the day before. After passing the town, however, we saw but little more floating cotton during the day. We had heard of batteries at Baton Rouge, but saw nothing of them.

As we went on, the plantations became more scattered and seemed newer. The greater number were devoted to the culture of cotton, instead of sugar as below. The country grew higher, too, and there were some high bluffs. We anchored at night on a lonely beach of the river.

Tuesday, May 6.—Kept on up the river till night, seeing nothing worth recording except the burning of cotton along the river banks and greater quantities of it floating down the river. We came to anchor at night off a large cotton plantation, the overseer of which said he had that day burned 700 bales of cotton by order of the owner. He was very unreasonable and refused to sell anything to us.

THE POPE COMING TO AMERICA.—Several Americans of eminence have been in London during the past week, among whom were Mr. Judd, United States minister to Berlin, and Gov. Randall, minister at Rome, on his way to his post. Bishop Duggan, of Chicago, and a number of other American Roman Catholic bishops, have passed through London on their way to Rome; having been summoned thither nominally to attend the ceremonial canonization of the martyrs of Japan. It seems to be the general opinion here that the Pope would hardly require so many bishops to make a journey of five or six thousand miles merely for a purpose so practically unimportant, and it is thought that some other motive is at the bottom of this movement. Prominent among the various speculations on the subject is one which I give for what it may be worth, viz, that the retirement of the Pope from Rome being only a question of time, he is possibly contemplating a permanent settlement on the American continent, and hence these bishops have been summoned to a general consultation.—*London Cor. Phil. Enquirer.*

ITALY.—A Turin letter says that all the Italian ministers have gone to Naples, where Prince Napoleon is to meet them with the emperor's plan for the settlement of the Roman question. What that plan is, is not known, but the letter affirms that the ex-king of Naples will be sent away from Rome, and the pope will have reasonable time for putting his affairs in order. Garabaldi is still in Upper Italy, pretending illness, and getting information about the Venetian provinces.

CONFEDERATE OFFICERS TAKING THE OATH OF ALLEGIANCE.—It is with much pleasure we record that Capt. J. D. Wheeler, Lieut. Wm. Patey, and Joseph Talley, private, of Smith's battallion, and Capt. Nathan Oakley, of Col. Hatton's infantry, Wilson county, having, left the army at Corinth, came home and voluntarily took the oath of allegiance to the government of the United States, and gave bonds for their good behavior, in this city on yesterday. Captain Robert Bass and Lieut. Sumner Hamilton, also of Smith's battallion, have likewise taken the oath and given bonds.—*Nashville Union, May 30.*

A WHOLE TENNESSEE REGIMENT ABANDONING THE REBELLION.—We learn that Col. Newman's infantry regiment which was raised in Bedford, Marshall and the adjoining counties, left Beauregard's army at Corinth *en masse* some days ago, and are now on their way home. This regiment was composed of twelve months men who refused to be forced into the service any longer, although great efforts were made to retain them, they being the most valuable in the service. They are completely disgusted with the rebellion. The boys wrote as a motto on their hats, "Home or Hell."—Thousands more are anxious to follow them. Come back to the old flag, boys!—*Nashville Union.*

RETURN OF MR. WEED.—Mr. Thurlow Weed announces his return to the United States, after his protracted absence, by the steamer of the 25th. He has been received and treated, both in this country and France, with much consideration and respect, and it is believed that his mission has not been unproductive of good effects.—*London Correspondence Philadelphia Inquirer.*

HAUL OF GUN METAL.—When General Butler's troops took possession of the Custom House at New Orleans, they found in the same $50,000 worth of bells and bells of all sorts and sizes, that had been contributed by the rebels in response to Beauregard's proclamation for gun-metal.—When made up, these guns will speak in different tones from what their donors anticipated.

On the 4th of March, 1861, when President Lincoln was inaugurated, the government vessels available for service were only four in number, carrying 25 guns. Our navy now consist of 264 vessels of all sizes, carrying 2,057 guns, with an aggregate tonnage of 218,016 tons. The number of seamen now employed is 22,000.

Last Night's Report.

PHILADELPHIA, June 4.

The steamer Muldin arrived at 1 o'clock this morning from James river, having on board 400 wounded Pennsylvania soldiers from the late battle on the Chickahominy.

BOSTON, June 4.

A private dispatch says that the steamer Daniel Webster left White House, last night, with 242 wounded New England soldiers, including Brig. Gen. Devins and Col. Briggs, of Boston.

WASHINGTON, June 4.

The act to prevent and punish frauds on the part of officers entrusted with making contracts with the government, which has just been approved by the president, establishes an office, where all contracts are to be placed for public inspection. All officers making contracts are required to swear that they conclude the same without any benefit or advantage to themselves or to any other person. The penalty for the violation of the law is not less than $100 nor more than $500, and imprisonment not more than six months.

An official report from the secretary of the treasury states the public debt on the 25th of May at $491,445,984.

The sub-committee of ways and means have had a draft of the new tariff bill printed for the private use of that committee.

MARTINSBURG, June, 4.

Reliable statements from Strasburg say that Jackson's whole force, with his train and prisoners, succeeded in passing through towards New Market. The firing of Monday was an attack of Gen. Milroy on Jackson's rear guard at Fisher's Hill, a strong strategic point a mile and a half south of Strasburg. From all the information attainable the enemy held his ground and resumed his retreat during the night. It is reported that Jackson's advance guard was at New Market on Monday night. Generals Smith and Longstreet were in the valley with 15,000 men, but their exact position was unknown.

CHICAGO, June 4th.

A special despatch from Cairo says that immediately on the occupation of Corinth, forces from Gen. Pope's division were sent out in pursuit of such rebels as fled westward. Gen. Granger, in command of two regiments of cavalry, soon came upon the rear of the enemy, six miles south-west of Corinth, and engaged them. He lost fifty men in this fight, but was afterwards re-inforced, when the rebels were surrounded. It is said that five or ten thousand were captured. A portion of these have reached Pittsburg Landing, en route for the northern military prisons. Latest accounts state that Gen. Pope was nine miles south-west of Corinth, which point his whole corps had reached.

Special dispatch to the Chicago Tribune.

CAIRO, June 4.

There have been several arrivals from above to-day, but no items of interest relative to operations at Corinth are allowed to be published.

Since the evacuation of Corinth the rebel cavalry regiment under Bill Jackson, numbering 1,000 strong, are stationed again at Trenton. The latest news from the fleet came by the De Soto this morning. There was a rumor current this morning in Cairo that the fort was evacuated, but this is not believed.

I understand that Col. Fitch, of the 46th Indiana, thinks that it is now progressing. Whether evacuated or not, there are movements which will compel its evacuation or surrender within a very few days.

A refugee from Arkansas reports that steps are being taken to call a state convention in Arkansas, with a view to give in their allegiance to the Union.

The whole number of troops arriving at Cairo from May 13th to June 4th, is 16,157. Of these, 2,150 are sick, and 100 were prisoners from the Tennessee.

WASHINGTON, June 4.

The following dispatch has been received this afternoon at the war department:

HALLECK'S HEADQUARTERS, June 4, 1862.
To Hon. E. M. Stanton, Secretary of War:—

Gen. Pope, with 40,000 troops, is thirty miles south of Corinth, pushing the enemy hard. He already reports 10,000 prisoners and deserters from the enemy and 15,000 stand of arms captured. Thousands of the enemy are throwing away their arms as they fly.

A farmer says that when Beauregard learned that Col. Elliot had cut the railroad on his line of retreat, he became frantic, told his men to save themseves the best way they could. We captured nine locomotives and a number of cars. One of the former is already repaired, and is running to-day. Several more will be in running order in a few days. The result is all that I could possibly desire.

Signed,
H. W. HALLECK,
Major General Commanding.

Special Dispatch to the Chicago Tribune.

WASHINGTON, June 4.

The instructions to Governor Andy Johnson are identical with those of Governor Stanly of North Carolina.

The comptroller of the treasury has refused to audit the claims of the National Intelligencer for $35,000, under the late resolution of the House, directing that sum so be paid out of the contingent fund for the Annals of Congress. The comptroller says the contingent fund can only be applied to certain regular contingencies already provided for by law, and any new expenditure must be covered by special appropriation. It is to be feared the Intelligencer will be put to the trouble of having another bill passed, and the country to the trouble of perusing another ugly record.

The emancipation bill, rejected, was reconsidered by nineteen majority, all republicans, except Granger of Michigan, against whom charges of apostacy are freely made. Horton of Ohio, and Divan of New York, voted aye. They are unionists. Harrison of Ohio, Thomas of Massachusetts, and Sheffield of Rhode Island, voted no.

Fouke was brought on to vote. Casey of Kentucky, and Fisher of Delaware, dodged. Barnham of Connecticut, with the exception of colonels in the field, was the only republican absent unpaired.

Porter's substitute for the original bill frees the slaves of ring leaders, and confiscates their property, and frees the slaves of all rebels who remain such, sixty days after this notice. It disqualifies those whose slaves are freed from ever holding office, and contains Blair's voluntary emancipation proposition.

The senate voted to tax cotton a half cent per pound, and reduced the tax on insurances premiums from three to one per cent., and that on auctions to one-tenth per cent. on stock sales.

On Garret Davis' motion, a tax was imposed on silver and gold over $500 in amount.

A fugitive slave was released by the commission to-day, the claimant's counsel admitting he was free under the emancipation act.

To-Day's Report.

MORNING DESPATCHES.

FORT MONROE, June 2.

One of the first acts of General Dix, is the relaxation of all restriction upon trade with Norfolk. After this date provisions of all kinds may be taken to Norfolk or Portsmouth. Another satisfactory change is the revocation of the order requiring the examination of drop letters in Norfolk and Portsmouth, before their delivery.

NASHVILLE, June 4.
Special to the New York Herald.

Col. Wyhkoop's Pennsylvania cavalry made a dash into Winchester, to-day, dispersing a large force of rebels, capturing a fighting preacher, Captain Timball. Fifteen hundred union prisoners captured by the rebels at Shiloh, arrived here to-day, released on parole. The rebels had not enough to feed them. They had been taken to Georgia.

NEW YORK, June 5.

The Persia arrived this morning. European news is unimportant. The anxiety for American intelligence daily increases.

In the House of Commons Mr. Mildmay asked what steps the government intended to take in the case of the steamer Bermuda, seized by a federal ship of war on her passage from one British colony to another.

Mr. Layard said the government had received information of the seizure and the case had been referred to the law officers of the crown, whose opinion was awaited.

The Times says the details of the capture of New Orleans places the surrender in a more creditable light for its defenders. Surrender after such a contest as took place being divested of any reproach. It says stubborn and protracted resistance is yet threatened by the south, but the progress of the north, though somewhat slow, has hitherto been sure, and if place after place be abandoned, there must come a time when the rest will be hardly worth defending.

The Paris Constitutionale argues that the north in advancing deep into the south will meet with insurmountable obstacles; that the end is further off than ever, and that those who urge the north to establish its sway on sanguinary ruins and devastation, are not aware of the sad future. They would prepare emancipation for four millions of negroes and slavery for six millions of whites.

Arguments relative to the restitution of the ship Emily St. Pierre were advanced pro and con in the Liverpool journals.

The Globe says England has washed her hands of the Mexican business, retaining only her hold of Vera Cruz to compel the discharge of debts to English subjects.

Lord Paget said the admiralty had settled with Capt. Cooles, relative to his cupola inventions. It is reported he gets £5,000 down, and £1,000 for every cupola introduced in the navy during fourteen years.

The common council of London had unanimously agreed to present the freedom of the city to Geo. Peabody in a gold box for his munificent gift.

It is reported that the French government have resolved on the occupation of the City of Mexico under every contingency, and next fall every strategic position of the country to be seized on. The occupancy is to extend three years to allow time for the development of the national will. The Arch Duke Maximillian, of Austria, is about to visit France.

It is reported that France has formally demanded the expulsion of the ex-King of Naples from Rome.

Trade at Manchester is inactive, but prices firm with tendency towards a further advance.

Richardson, Spencer & Co., and others report flour again easier and prices nominal—quotations 23 and 6a30—wheat very quiet, and in favor of buyers. Red western 9 and 6a10 and 6, southern 10 and 6, white western 11 and 3a11 and 9, southern 11 and 2a12 and 3 ber cent.

Saturday p. m., market entirely without change, business very dull.

WASHINGTON, June 4, P. M.

No despatches have been received, to day, at the war department from the headquarters of the army of the Potomac. The military telegraph line between Fort Monroe and headquarters is broken by a storm but is expected to be repaired by to-morrow.

No intelligence of public interest has been received from Shenandoah. The rise in the Shenandoah embarresses military operations.

AFTERNOON DESPATCHES.

QUEENSTOWN, May 25.

CHINA—Shanghai, April 17.—The rebels were driven out of Thuggadu on the 3rd. The place is in the hands of the allies. Admiral Hope was slightly wounded. Nankin is surrounded by superior forces.

FORT MONROE, June 4.

The steamer Vanderbilt arrived this morning, from White House, with 560 wounded soldiers in the recent engagements. The steamer Metamoras, which took to City Point Mrs. Greenhow and party, returned last night. The steamer Massachusetts with the privateers on board, was lying along side the wharf at City Point.

In answer to the notice given of her arrival, a train of three baggage cars came to City Point from Petersburg, yesterday forenoon, with two rebel officers on board. They came after the privateers, but not having brought down Col. Corcoran and party, the privateers were not given up.

Nothing later in regard to the subject had transpired, up to yesterday afternoon, when the Massachusetts was still awaiting further communication from Petersburg.

NEW YORK, June 5th.

The steamer Philadelphia, from Pensacola 25th, and Key West 30th, has arrived. Gen. Arnold and troops still occupy Pensacola, and a quantity of stores, &c., have been moved from Fort Pickens to that place. Rebel deserters are constantly coming in. The Wilson Zouaves are throwing up fortifications commanding all land approaches. The Vincennes lays off the city. General Arnold is feeding the poor, who are very destitute. About 800 rebel cavalry are in the neighborhood of our pickets, capturing some frequently. The navy yard was completely destroyed, and 6,000 tons of coal is still burning.

BALTIMORE, June 5.

The gallant Col. Kenly arrived here this morning. Although still suffering from his wounds he is anxious to be exchanged and resume his place in the army.

POCHAHONTAS, Ark., June 5.

A rebel gunboat came to Jacksonport, day before yesterday, and destroyed all the cotton and sugar there. She was reported to be on the way here, but we have since learned that she returned down the river, destroying all cotton and sugar as she went. It is supposed that a very large amount of each has been destroyed. For a time there was much consternation in this vicinity, and troops were under marching orders all Tuesday night. Everything is quiet now.

HALLECK'S HEADQUARTERS, June 4.

MIDNIGHT.—A man who left Grand Junction this morning, says that Memphis and Fort Pillow were surrendered to our forces Friday night.

HALLECK'S HEADQUARTERS, June 3.

Citizens say, when Beauregard learned that the railroad had been cut he became frantic and told his men to save themselves as best as they could. Several regiments of Mississippians have dispersed and gone home. Gen. Pope with 40,000 men, at last accounts, was 40 miles south, pressing the enemy hard. He already reports 10,000 prisoners and deserters, and 15,000 stand of arms captured. We have also captured nine locomotives, partially disabled and several cars and expect to have them running.

Concerning contrabands we have the following, addressed to Gen. Phelps, the great proclaimer:

HEADQUARTERS DEPARTMENT OF THE GULF, New Orleans, May 9th 1862.

GEN. PHELPS—Mr. J. B. G. Armond says that a boy by name of Irwin Pardon, whose services he claims, has come within your line. The course which I have adopted in such cases is this: If I have any use for the services of such a boy I employ him without any scruple; if I have not, I do not harbor him, as my subsistence would by no means serve for so many extra men that I do not need. If you have any use for him, use him; if not, is he not like any other vagrant about the camp?

Respectfully, B. F. BUTLER,
Maj. Gen. Commanding.

REV. HENRY WARD BEECHER, in the course of his service at the Plymouth Church, Sunday night, made an eloquent appeal for newspapers, speaking of them as one of the most potent elements of our civilization. "There is," said he, "a common vulger objection about newspapers that 'they lie' so; they don't lie any more than you do. Man is naturally a lying creature. Truth is a gift from Heaven, and very few of us possess it before we get there. The newspapers give both facts and rumors, and they would be blaemd if they did not do so. It is for the reader to judge of these rumors. The last economy should be in regard to newepapers. It is better to deprive the body of some ribbon, or jewel, or garment, than to deprive the mind of its sustenance."

COL. WOOD.—We regret to learn that Col. Wood, of the Wisconsin Fourteenth, still remains quite sick, and fears are entertained that he will not recover. We hope these fears will not be realized.

DIED.

At the residence of his father, JOHN CHARLES, youngest son of Joseph L. and Ann Croft, aged 10 years and 6 months.

Funeral at the house, Friday morning at 10 o'clock.

The Mutual Life Insurance Company
OF THE
STATE OF WISCONSIN.

Presents advantages in all respects equal, and in some superior, to those of other companies doing business in the northwest. Its rates, its plan of operations, and its basis, are identical with the best companies in this country and Europe. Its age, and consequently its accumulations, are not equal to theirs *in amount*, but in proportion to the age of risks, and amount at risk, they will compare favorably with the most successful.

Its assets, which have resulted solely from the accumulations of three years, amount to **$86,881.20**, and its annual income, from policies now in force, over **$65,000.**

Its assets and business are constantly increasing. Its losses have been promptly paid. Its trustees are well known, honorable business men, and are as capable of managing an institution of this kind, as men in any other portion of the United States. The experience of the company thus far proves that we can have as reliable companies in the west as any where else, if we will, *and self-interest certainly indicates that we should have them, and build up home interests in every practicable way.* In the above respects, this company claims equality with its co-workers, and in the following superiority: It obtains the greater portion of its business in the healthiest portion of the United States, thus having the advantage of a less per centage of loss: it receives higher rates of interest on its investments, thus making more rapid accumulations—both very important items in Life Insurance; *and its expenses have been less* in proportion to its business than any other new company doing business in the United States.

S. S. DAGGETT, President.
A. W. KELLOGG, Secretary.
H. G. WILSON, General Agent.

The company has a large number of lives insured in Janesville. Applications for insurance received by the agent, Willard Merrill, at his law office in Lappin's block.

A Slight Cold, Cough, Hoarseness or Sore Throat, which might be checked with a simple remedy, if neglected, often terminates seriously. Few are aware of the importance of stopping a Cough or Slight Cold in its first stage; that which in the beginning would yield to a mild remedy, if not attended to, soon attacks the lungs.

Brown's Bronchial Troches were first introduced eleven years ago. It has been proved that they are the best article before the public for Coughs, Colds, Bronchitis, Asthma, Catarrh, the Hacking Cough in Consumption, and numerous affections of the Throat, giving immediate relief.

Public Speakers & Singers will find them effectual for clearing and strengthening the voice.

A GOOD PLACE FOR SALE.—Persons desiring to purchase property will find a valuable place by calling on Mr. Horton. See his advertisement.

FROM THE THIRTEENTH REGIMENT.—We learn that the 13th regiment was at Cairo on the 3d inst., on their way to Columbus, on the Mississippi river, where they were ordered to report. They left fifteen sick at St. Louis, and had twenty sick on board.

WATER WITCH MEETING.—The regular meeting of Water Witch Engine Co. No. 2, will be held this evening at 8 o'clock. Let every member attend.

ROBBERIES IN ROCKFORD.—Several residences in Rockford were entered last week Wednesday night, and money, watches and ware pilfered. What town will be visited next?

CUSTOM GRINDING.—Hanchett and Sutherland have rented the custom department of the big mill, and will supply orders for flour, delivering it any where in the city. See their advertisement.

WHAT GENERAL CASS SAYS.—Somebody asked General Cass, the other day in Detroit—"General what can we do to save the nation?" "Anything." "May we abolish slavery?" "Abolish anything on the surface of the earth to save the nation."

THE RIGHT AND ONLY WAY.—Brig. Gen. Schofield, acting military governor of Missouri, has issued an order to shoot instantly, every guerilla taken in arms against the Union. He would exterminate them as he would rats or mad dogs. This is the Napoleonic way to deal with these marauding villains whose malignity is desolating the country, is reducing thousands of women and children to the pangs of sharp penury. This should be the policy of every military governor, and when it is thoroughly carried out we shall have peace—and not before.—*Mil. Wisconsin.*

We shall see the execution of an order of this kind whenever the directing powers at Washington come to the conclusion that the country is engaged in a war, and not a family difficulty to be settled by negotiation. Heretofore the pains and penalties of transgression have been reserved for Union soldiers and citizens, while the mercies of an anticipated repentance or a conditionless forgiveness have been extended to rebels. We hope Gen. Schofield will shoot, hang or kill in battle every miscreant in his department. Gen. Butler, if not "modified" by a superior authority, will "clean out" his section of country. He recent order in relation to the insolent women of that city was just right. When a woman unsexes herself, or presumes upon her privileges beyond the point of decency, she is entitled to no more forbearance than any other blackguard. On general principles the secesh women of the south approach Pollock's description of a certain class of skeptics in charge of the devil after death nearer than anything left on earth.

"Hell's mud-houses are full of such,
Too fierce, to turf-dusty fusans and desperate
To range unbound among evil spirits damned."

Why should not a murderer be treated as a murderer, even if he wears a pair of shoulder straps, or a vixen as a vixen, though she wears the latest style of hoops and morie antique?

MEXICO AND FRANCE.—A curious letter of Gen. Prim, commander of the Spanish portion of the army for the invasion of Mexico, is in print. From this letter it seems that Spain and England were both very effectually sold by the wily Napoleon.—Almonte, it appears, offered his plan for turning Mexico into a monarchy first to Spain, and O'Donnell at once laid them before Napoleon, innocently supposing that none but a Spanish Prince could attain to the prospective throne. While the expedition was getting ready, Napoleon picked out the Austrian Archduke, a descendant of Charles V., a fact that suddenly cooled O'Donnell's warlike disposition, and from that time out Spain has been trying to get out of the scrape. England also backed out, and now Napoleon plays a lone hand, which rumor says he is about to "throw up." European political speculations in America, are not particularly flourishing, just now.

TENNESSEE.—Governor Neil S. Brown, a prominent rebel, of Tennessee, and member of the military board of that state, addressed a Union meeting at Columbia, in which he said the rebellion was played out; Tennessee was lost to the southern confederacy, and all the people ought to be for the Union. The Shelbyville News says that Mr. James Russ, formerly editor of the Shelbyville Expositor, was arrested by the federal authorities at that place, on the 22d ult., and was released on the 25th. Mr. Russ publishes a card in the News, in which he states that, in espousing the cause of the confederacy, he was mistaken as to the intentions of President Lincoln, and that he takes his position again under the stars and stripes.

THE CONDUCT OF GEN. BANKS ON THE RETREAT.—Upon an eminence, a short distance beyond Williamsport, and near the Hagerstown turnpike, Maj. Gen. Banks has his headquarters in a tent. It is nothing but an ordinary canvass covering; but within it is the man who, next to Sigel, may be said to have conducted the most successful retreat ever accomplished in this country. Officers and men, from acting major general to the smallest drummer boy, are lavish in their praise of him. During the battle he was ever foremost; upon the retreat he maintained a position in the rear, and when the army crossed over the Potomac, his staff and himself were the last to be ferried over. All gloried in their commander when he led them down the valley of the Shenandoah; but his successful action of the past few days have rendered him more popular and respected as a man, and more beloved and regarded as an officer, than ever before.

HOME INSURANCE COMPANY,
OF
New York.
Cash Capital and Surplus Over
$1,500,000.00.
CHAS. J. MARTIN, President. A. F. WILMARTH, Vice President.
JOHN M'GEE, Secretary.
E. L. DIMOCK, Agent,
for Janesville and Vicinity.

The Wall Street Underwriter, for April, has the following:

HOME INSURANCE COMPANY OF NEW YORK.—The annual statement of this our foremost local fire company, made up to the 1st of January last shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, president, A. F. Willmarth, vice-president, and John McGee, secretary, those well accredited officers very justly say: "The well-known reputation of the HOME, for fair and honorable dealing, together with its capital of ONE MILLION DOLLARS, and surplus of about half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our state, in high credit all over the Union, worked ubon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the 1st of January last summed up to $1,521,268 08, against an actual liability of only $55,080.13! and moreover it is worth noting that the assets are all of the very first class. The balance in bank in cash was $124,434.14, very nearly enough to set up an ordinary company, bonds and mortgages $910,219.53, secured on real estate worth $1,715,900, and then government and other stocks, equivalent to cash and convertible into cash any day, $320,636. Any one who is not satisfied with the security of the HOME as an insurance institution must be hard to please.

In 1861 the HOME wrote $106,715,148.00, taking $829,903 premium, and paid losses $535,775, including some losses for the year 1860. A dividend of 10 per cent was paid on the million capital; and after reserving an ample reinsurance fund the company shows a "net surplus" of $160,641, clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

TO OUR PATRONS.

We take pleasure in laying before you the Eighteenth Semi-Annual Report of the affairs of this company, with a comparative statement of its progress from year to year, together with a statement of the dividends declared to customers, the amount of Scrip Fund representing such dividends, and the *net surplus* accumulated, since the plan of allowing the customers of this company to participate in the profits of the business was adopted: from which it is apparent that by the system pursued the customers of the company obtain a *constantly increasing* security at the smallest possible expense, and that this is obtained WITHOUT ANY LIABILITY WHATEVER TO THE INSURED.

The Net Surplus of the company, January 1, 1862, over and above all liabilities, after reserving a sum sufficient to re insure all outstanding risks, was $428,287.24.

The company having reserved the right to issue non participating policies, is prepared to issue such policies to persons desiring them, at rates as LOW AS ANY COMPANY can insure, and at the same time offer security worthy of the name.

A GOOD PLACE FOR SALE.—Persons desiring to purchase property will find a valuable place by calling on Mr. Horton. See his advertisement.

FROM THE THIRTEENTH REGIMENT.—We learn that the 13th regiment was at Cairo on the 3d inst., on their way to Columbus, on the Mississippi river, where they were ordered to report. They left fifteen sick at St. Louis, and had twenty sick on board.

WATER WITCH MEETING.—The regular meeting of Water Witch Engine Co. No. 2, will be held this evening at 8 o'clock. Let every member attend.

ROBBERIES IN ROCKFORD.—Several residences in Rockford were entered last week Wednesday night, and money, watches and ware pilfered. What town will be visited next?

CUSTOM GRINDING.—Hanchett and Sutherland have rented the custom department of the big mill, and will supply orders for flour, delivering it any where in the city. See their advertisement.

WHAT GENERAL CASS SAYS.—Somebody asked General Cass, the other day in Detroit—"General what can we do to save the nation?" "Anything." "May we abolish slavery?" "Abolish anything on the surface of the earth to save the nation."

THE RIGHT AND ONLY WAY.—Brig. Gen. Schofield, acting military governor of Missouri, has issued an order to shoot instantly, every guerilla taken in arms against the Union. He would exterminate them as he would rats or mad dogs. This is the Napoleonic way to deal with these marauding villains whose malignity is desolating the country, is reducing thousands of women and children to the pangs of sharp penury. This should be the policy of every military governor, and when it is thoroughly carried out we shall have peace—and not before.—*Mil. Wisconsin.*

We shall see the execution of an order of this kind whenever the directing powers at Washington come to the conclusion that the country is engaged in a *war*, and not a family difficulty to be settled by negotiation. Heretofore the pains and penalties of transgression have been reserved for Union soldiers and citizens, while the mercies of an anticipated repentance or a conditionless forgiveness have been extended to rebels. We hope Gen. Schofield will shoot, hang or kill in battle every miscreant in his department. Gen. Butler, if not "modified" by a superior authority, will "clean out" his section of country. He recent order in relation to the insolent women of that city was just right. When a woman unsexes herself, or presumes upon her privileges beyond the point of decency, she is entitled to no more forbearance than any other blackguard. On general principles the secesh women of the south approach Pollock's description of a certain class of skeptics in charge of the devil after death nearer than anything left on earth.

"Hell's mad-houses are full of such,
Too fierce, to turn, their insane and desperate
To range unbound among evil spirits damned."

Why should not a murderer be treated as a murderer, even if he wears a pair of shoulder straps, or a vixen as a vixen, though she wears the latest style of hoops and morie antique?

MEXICO AND FRANCE.—A curious letter of Gen. Prim, commander of the Spanish portion of the army for the invasion of Mexico, is in print. From this letter it seems that Spain and England were both very effectually sold by the wily Napoleon.—Almonte, it appears, offered his plan for turning Mexico into a monarchy first to Spain, as O'Donnell at once laid them before Napoleon, innocently supposing that none but a Spanish Prince could attain to the prospective throne. While the expedition was getting ready, Napoleon picked out the Austrian Archduke, a decendant of Charles V., a fact that suddenly cooled O'Donnell's warlike disposition, and from that time out Spain has been trying to get out of the scrape. England also backed out, and now Napoleon plays a lone hand, which rumor says he is about to "throw up." European political speculations in America, are not particularly flourishing, just now.

TENNESSEE.—Governor Neil S. Brown, a prominent rebel, of Tennessee, and member of the military board of that state, addressed a Union meeting at Columbia, in which he said the rebellion was played out; Tennessee was lost to the southern confederacy, and all the people ought to be for the Union. The Shelbyville News says that Mr. James Ross, formerly editor of the Shelbyville Expositor, was arrested by the federal authorities at that place, on the 22d ult., and was released on the 25th. Mr. Ross publishes a card in the News, in which he states that in opposing the cause of the confederacy, he was not taken as to the intentions of President Lincoln, and that he takes his position again under the stars and stripes.

THE CONDUCT OF GEN. BANKS ON THE RETREAT.—Upon an eminence, a short distance beyond Williamsport, and near the Hagerstown turnpike, Maj. Gen. Banks has his headquarters in a tent. It is nothing but an ordinary canvass covering; but within it is the man who, next to Sigel, may be said to have conducted the most successful retreat ever accomplished in this country. Officers and men, from active major general to the smallest drummer boy, are lavish in their praise of him. During the battle he was everforemost; upon the retreat he maintained a position in the rear, and when the army crossed over the Potomac, his staff and himself were the last to be ferried over. All gloried in their commander when he led them down the valley of the Shenandoah; but his successful action of the past few days have rendered him more popular and respected as a man, and more beloved and regarded as an officer, than ever before.

HOME INSURANCE COMPANY,
OF
New York.
Cash Capital and Surplus Over
$1,500,000.00.
CHAS. J. MARTIN, President. A. F. WILMARTH, Vice President.
JOHN M'GEE, Secretary.
E. L. DIMOCK, Agent,
for Janesville and Vicinity.

The Wall Street Underwriter, for April, has the following:

HOME INSURANCE COMPANY OF NEW YORK.—The annual statement of this our foremost local fire company, made up to the 1st of January last shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, president, A. F. Willmarth, vice-president, and John McGee, secretary, those well accredited officers very justly say: "The well-known reputation of the HOME, for fair and honorable dealing, together with its capital of ONE MILLION DOLLARS, and surplus of about half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our state, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the 1st of January last summed up to $1,521,268.08, against an actual liability of only $55,080.13; and moreover it is worth noting that the assets are all of the very first class. The balance in bank in cash was $124,434.14, very nearly enough to set up an ordinary company. Bonds and mortgages $919,219.53, secured on real estate worth $1,715,900, and then government and other stocks, equivalent to cash and convertible into cash any day, $320,636. Any one who is not satisfied with the security of the HOME as an insurance institution must be hard to please.

In 1861 the HOME wrote $106,715,148.00, taking $829,903 premium, and paid losses $535,775, including some losses for the year 1860. A dividend of 10 per cent was paid on the million capital; and after reserving an ample reinsurance fund the company shows a "net surplus" of $160,644, over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

TO OUR PATRONS.

We take pleasure in laying before you the Eighteenth Semi Annual Report of the affairs of this company, with a comparative statement of its progress from year to year, together with a statement of the dividends declared to customers, the amount of Scrip Fund representing such dividends, and the *net surplus* accumulated, since the plan of allowing the customers of this company to participate in the profits of the business was adopted: from which it is apparent that by the system pursued the customers of the company obtain a *constantly increasing* SECURITY at the smallest possible expense, and that this is obtained WITHOUT ANY LIABILITY WHATEVER TO THE INSURED.

Something for Every Citizen, Every Fireside,
Every Rader!
NO MAN, NO FAMILY, NO OFFICE SHOULD BE WITHOUT IT.
The only Correct and Complete
HISTORY OF THE WAR.
THE SOUTHERN REBELLION
and the
WAR FOR THE UNION!
A History of the
Rise and Progress of the Rebellion,
and
Consecutive Narrative of Events and Incidents, from the First Stages of the Treason Against the Republic down to the Close of the Conflict,
TOGETHER WITH IMPORTANT DOCUMENTS AND EXTRACTS FROM REMARKABLE SPEECHES.

In Weekly Parts, 32 pages, large 8vo, Price 10 Cents.

THE want of an *authentic* and *thorough* History of the Rebellion, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the mazes of the rumors, reports, dispatches, letters and editorials of the daily newspapers, to *precipitate*, from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of *permanent value as well as of present interest*, the publisher has arranged for the issue of the history as above set forth—in a form and at a price which shall render it *acceptable to all*.

This history will tell the STORY AS IT IS, giving a clear, consecutive narrative of the entire movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a mere diary, nor a mere enumeration of dry and naked dates, nor a compilation of slips from newspapers, but will portray in connected and interesting narrative, the revolutionary steps, as well as the measures of the government.

It will carefully digest all evidence—will sift all rumors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to the hasty narratives of the newspapers.

It will be *written in a style* suited to its theme—at once graphic, earnest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and not a *correct*, *connected* and *complete* history. The above publication, afterwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the Life of Washington, and worthy to be kept for children and grand-children, as a memorial of the present time.

It will thus prove desirable, available and satisfactory to every citizen, every family, every office, every library: and is given to the public in the full assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Glorious Land.

GREAT REDUCTION
—IN—
The Prices
—OF—
SINGER & CO.'S
STANDARD MACHINES,
Well known to be the best for
Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at $90,

Reduced to $70.

No. 2, Standard Shuttle Machine, formerly sold at $100,

Reduced to $7

Singer's Letter A Machine,

IS the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

☞ Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

☞ All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of,

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good *machines can be made at moderate prices*. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal and finished to perfection.* We have the ways and means, on a grand scale, to do this.

The purchasers of *machines, whose daily bread it may concern*, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money with less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

The only Correct and Complete

HISTORY OF THE WAR.

THE SOUTHERN REBELLION

and the

WAR FOR THE UNION:

A History of the

Rise and Progress of the Rebellion,

and

Consecutive Narrative of Events and Incidents, from the First Stages of the Treason Against the Republic down to the Close of the Conflict,

TOGETHER WITH IMPORTANT DOCUMENTS AND EXTRACTS FROM REMARKABLE SPEECHES.

In Weekly Parts, 32 pages, large 8vo, Price 10 Cents.

THE want of an *authentic* and *thorough* History of the Rebellion, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the mazes of the rumors, reports, dispatches, letters and editorials of the daily newspapers, to *precipitate*, from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of *permanent value as well as of present interest*, the publisher has arranged for the issue of the history as above set forth—in a form and at a price which shall render it *acceptable to all.*

This history will tell the STORY AS IT IS, giving a clear, consecutive narrative of the entire movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a mere diary, nor a mere enumeration of dry and naked dates, nor a compilation of slips from newspapers, but will portray in connected and interesting narrative, the revolutionary steps, as well as the measures of the government.

It will carefully digest all evidence—will sift all rumors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to the hasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, earnest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and not a *correct, connected* and *complete* history. The above publication, afterwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the Life of Washington, and worthy to be kept for children and grand-children, as a memorial of the present time.

It will thus prove desirable, available and satisfactory to every citizen, every family, every office, every library: and is given to the public in the full assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Glorious Land.

SINGER & CO.'S

STANDARD MACHINES,

Well known to be the best for

Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at \$90,

Reduced to \$70.

No. 2, Standard Shuttle Machine, formerly sold at \$100,

Reduced to \$7

Singer's Letter A Machine,

IS the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best, The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of,

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal* and *finished to perfection.* We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money with less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.
